PATIENT ONLINE

Giving you more choice in accessing GP services

WHAT IS PATIENT ONLINE

Patient Online will help you to take greater control of your health and wellbeing by increasing online access to services.

You have been telling us that you want to be offered more convenience, choice and control in how you access GP services. Increasingly, you also want to be informed and involved in decisions about your own care and treatment.

Evidence shows that patients who are informed and involved in their own care, have better health outcomes and are less likely to be admitted to hospital.

PATIENT ONLINE AT WOODFIELD MEDICAL GROUP

The practice has been offering online services for repeat prescriptions and access to summary records for quite a while but over the years new services have been implemented, you can now:

- * Book GP appointments
- * View up coming appointment details
- * Cancel appointments
- * Order repeat prescriptions
- * Update your address and contact information
- * View your medical records

WHY REGISTER FOR ONLINE SERVICES

Online services are available 24/7, therefore you don't need to panic if you realise at 8pm on a Friday that you didn't order your repeat medication or you can't get through on the phone to book a routine appointment with a GP.

With the introduction of access to medical records you will also be able to view your test results, check we have received a letter from the hospital or view your immunisation history.

REGISTERING FOR ONLINE SERVICES

Registration is easy:

1. Complete the registration form at the back of this leaflet
2. Bring the registration form to reception along with photo identification (passport or driver's licence) and proof of address such as a bank or credit card statement.
3. If your photo ID includes your current address, no further proof of address is necessary.

If you do not have any photo ID please check with reception what documentation will be required - for your security and confidentiality we have to be sure access to records is only given to the patient concerned.

4. You will be given a registration login for the online system.
5. Register online as soon as possible - remember to keep you login details secure.

Alternatively you can register for online appointments only by visiting <https://patient.emisaccess.co.uk/>

Please note that the practice has the right to remove online access to services for anyone that does not use them responsibly.

Before you apply for online access to your summary records, there are some important things to consider.

Forgotten history - there may be something you have forgotten about in your records that you might find upsetting.

Choosing to share your information with someone - It's up to you whether or not you share information with others - perhaps family members or carers. It's your choice, but a so your responsibility to keep the information safe and secure.

Coercion - If you think you may be pressured into revealing details from your patient record to someone else against your will, it is best that you do not register for access at this time.

Misunderstood information - Your medical record is designed to be used by clinical professionals to ensure that you receive the best possible care. Some of the information within your medical record may be highly technical, written by specialists and not easily understood. If you require further clarification, please contact the surgery for a clearer explanations.

HOW TO USE THE ONLINE SERVICES

All patients can register for the online services, this includes parents being able to register their children, but there are some rules and stipulations, these are to protect and preserve patient confidentiality or safety.

- Appointments are only available for booking with GPs one month in advance (the system will only allow you to book up to one appointment in advance). You can cancel appointments at any time and view your booked appointment times.
- Registration to view summary care records must be done at the practice by the patient involved and identification must be checked by a member of staff at the practice.

- Prescription requests still need to be made 48 working hours prior to collection from the practice or from the chemist if you use electronic prescribing.
- It is your responsibility to keep your password and username secure, if you think your details have been compromised then contact the practice as soon as possible and access will be stopped, until you can come into the practice.
- You will need to book an appointment with your GP if you see any information in your summary care records about yourself that you feel is inaccurate.
- Mistakes have been known to happen, so if you see any information in your records that is not about you, please logout immediately and contact the practice as soon as possible, so this can be rectified.
- If you forget your username or password you can re-set these on the login page of patient access.
- If you are requesting full access to your medical record this will not become active immediately when you receive your account ID and linkage key. The process of adding the medical records can take a few weeks. Please ask at reception and they will be able to give you an approximate timeline for this to be activated.
